# OUR BRANDS

Pro-TEX are suppliers of a vast range of top quality site protection materials to avoid replacement and repair costs and help reduce the risk of unnecessary clean-up costs and delays.

**ALWAYS USE PROTECTION!**

# TEMPORARY PROTECTION FILMS.

PRO-TEX are suppliers of three temporary protection films for Carpet, Hard Floors and Glass & Windows. These temporary protection films are great for protecting these surfaces when carrying out DIY, renovations, house moves, new pets or even parties!

Pro-TEX the floor™

## TEMPORARY CARPET PROTECTION FILM.

A clear film which adheres to carpets to protect from spills, dust and dirt. Film is simply rolled out and over-lapped to cover large areas. The film can be run under doors without catching and can be wiped clean or vacuumed. Pro-TEX Temporary Carpet Protection Film is quick and easy to use and can be left in place for up to 14 days. At the end of the project the film is simply peeled off and disposed of.

Size:  
600mm x 50m (70mu) - 30 m<sup>2</sup>  
1m x 100m (70mu) - 100 m<sup>2</sup> \*  
1.2m x 100m - 120 m<sup>2</sup> \*

Reverse wound for easy application.  
Reduces the risk of trip hazards.  
Excellent for use on stairs.  
Can be run under doors without catching.  
Overlap to cover larger areas.  
Can be left in place overnight - no need to lay and lift each day, just brush, wipe or vacuum clean.  
Can be left in place for up to 14 days. Renew after 14 days.

**Flame retardant film available with advance order.**

\* With advance order.

## TEMPORARY HARD FLOOR PROTECTION FILM.

A clear film which adheres to hard floors to protect from spills, dust and dirt. Suitable for tiles, marble, laminate and vinyl, the film is simply rolled out and over-lapped to cover large areas. The film can be run under doors without catching and can be wiped clean or vacuumed. Pro-TEX Temporary Hard Floor Protection Film is quick and easy to use and can be left in place for up to 14 days. At the end of the project the film is simply peeled off and disposed of.

Pro-TEX the glass™

## TEMPORARY GLASS PROTECTION FILM.

A blue tinted film which adheres to glass and window frames to protect from scratches, paint, render, mortar and general dust and dirt. Manufactured with a special UV inhibitor to protect from the sun. Conventionally wound for easy application onto windows and glass surfaces. Pro-TEX Glass Protection Film is quick and easy to use and can be left in place for up to 14 days. At the end of the project the film is simply peeled off and disposed of.

Reverse wound for easy application.  
Reduces the risk of trip hazards.  
Can be run under doors without catching.  
Overlap to cover larger areas.  
Can be wiped clean or vacuumed.  
Can be left in place overnight - no need to lay and lift each day, just brush, wipe or vacuum clean.  
Can be left in place for up to 14 days. Renew after 14 days.

Size:  
600mm 50m (70mu) - 30 m<sup>2</sup>

Special UV inhibitor.  
Waterproof - Safe to use internally and externally.  
Conventional wound for easy application.  
Low tack adhesive won't leave sticky residue behind once removed.  
Overlap to cover larger areas.  
Can be left in place for up to 28 days. Renew after 28 days.

Size:  
533mm x 61m  
32.5 m<sup>2</sup>

# TARPAULIN

## Tarpaulin Pallet Covers

A 140gsm woven polyethylene tarpaulin designed to fit perfectly over palletised goods. It helps keep the contents of the pallet protected from dirt and bad weather. Great for securing loads during open transport. The woven polyethylene is weatherproof, rot proof and UV stabilised and features aluminium eyelets at each corner. A great re-usable alternative to other pallet cover methods.

### Size:

UK Pallet - 1000mm x 1200mm

Euro Pallet - 800mm x 1200mm

Oversize Pallet - 2405mm x 1205mm

### Available in 4 different heights:

500mm, 1000mm, 1500mm & 2000mm

## Tarpaulin Sheets

Silver heavy weight tarpaulin made from double laminated fabric. Weatherproof and 100% waterproof, with good tear and stretch resistance. Washable and rot proof.

Size: 5.4m x 3.7m

## Brick Jackets

Innovative product designed to ensure your bricks are kept protected in adverse weather conditions. This helps to reduce the risk of efflorescence occurring (crusty white deposits on brick face from moisture escaping.). Also, due to the bright nature of the Brick Jacket, they are a great safety feature on building sites making them visible at all times. If a topple should occur, the Brick Jacket also helps to keep the bricks encased to prevent injury.

Re-usable, stores easily and manufactured with ultra durable woven polypropylene.

# CORREX

## CORREX and CORREX FR

Correx is a corrugated plastic sheeting made from extruded, fluted polypropylene giving it strength, flexibility and durability. Correx is most commonly used in the construction industry as a protective barrier for floors, walls and doors - these reusable sheets are a simple and effective way to protect sites from dirt and accidental damage. Correx can also be printed on and used as signage or for packaging or storage solutions. This product is lightweight, easy to use and fully recyclable.

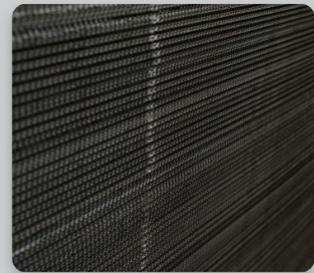

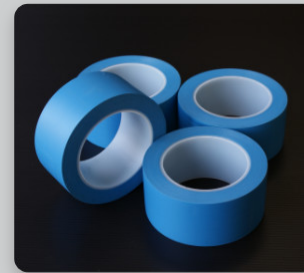

Correx is available in black, translucent and as a Flame Retardant sheet.

Size: 2.44m x 1.22m

Thickness: 2mm

3mm

4mm

## CORREX Tape

A range of tapes for use with Correx sheeting. Available in low, medium or high tack.

# SITE PROTECTION PRODUCTS

## PRO-TEX Lionboard

A hard wearing, heavy-duty card providing temporary protection for hard floors and surfaces.

Size: 1m x 25m

## PROTECT F1 Floor Protection Membrane

A high-performance multi-purpose coated non-woven membrane for surface protection to a wide range of floor substrates. Featuring integrated lap and sealing tapes and printed grid for easy alignment and installation.

Size: 1.5m x 50m

## PRO-TEX Stair Tread Protectors

Quick and easy to install, stair tread protectors fit snugly onto the stair tread to protect from dirt and damage. Most commonly used on site by the construction industry, this product is also an excellent way to prevent any unwanted mess when undergoing renovation projects at home.

Size: 760mm x 185mm

## PRO-TEX Door Sleeve Protector

Our protective door sleeves are simple to fit and suitable for all standard-sized doors. They are ideal for preventing unnecessary damage from dirt, dust, paint and general wear and tear whilst on site.

Size: 2m x 900mm

## PRO-TEX Foam Edge Protector

Heavy duty foam protectors, ideal for preventing damage to handrails, spindles and edges.

Size: 2m x 60mm x 80mm

## PRO-TEX Sticky Mats

A 30 layer pad of low profile adhesive mats which can be used in areas of heavy foot-fall to instantly contain loose dirt and debris. The pad has a strong adhesive underside allowing quick and easy installation. Used layers can be peeled off and discarded, revealing a fresh layer underneath. These are ideal for preventing the unnecessary contamination of clean areas from general dirt and dust.

Size: 900mm x 600mm

## PRO-TEX Heavy Duty Takmats

A 36 layer pad of heavy duty adhesive mats which can be used in areas of high foot-fall to instantly contain loose dirt and debris. The pad has rubber border to prevent edges from lifting and becoming hazardous. It can be quickly and easily installed using the sticky underside. Used layers can be peeled off and discarded, revealing a fresh layer underneath. These are ideal for use on building sites to prevent the unnecessary contamination of clean areas from high levels of dirt and dust.

Size: 900mm x 610mm

## Temporary Down Pipe / Lay Flat Tubing

A continuous roll of polythene tubing available in a range of different widths.

Size: 160m x 4 - 36 inches

## TPS Polythene

This clear polythene sheeting is ideal for use as a protective dust cover or to provide a waterproof barrier.

Size: 4m x 25m

## PRO-TEX Screening Props

For creating a dust barrier wall with polythene sheeting, Adjustable props to hold polythene sheeting in place on ceiling and floor.

Size:  
3m prop  
4m prop

9 | PRO-TEX

## PRO-TEX Breathertec

Breathable flame retardant membrane, allowing vapour release for uncured floors whilst offering impact protection to smooth floors.

Size: 2m x 50m

## PRO-TEX Forkliftable Mortar Tubs

Size: 250L

## PRO-TEX Blue Overshoes

Box of 50 pairs.

## PRO-TEX Yellow Grit Bin
